

Make a Change

Youth of Today

I see it on the streets
As we walk right by
What little value
we place on human fuckin lives!But it's time we get priorities
It's time to rearrange
Won't turn my back any longer
It's time we make a change!People so cold
They ignore others' pain
People too proud
To realize they're the fuckin sameWe all make a changeBut it's time we get priorities
It's time to rearrange
Won't turn my back any longer
It's time we make a change!
Make a change
Make a change
