

Paddle Out

Sublime

I never thought that when I grew up I would be in a band
and travel all the best spots in the land yeah
I'm not here to brag or boast
I'm here to tell you about the spots I love the most
Natural bridges on a clean west swell
breaks over the reef like a bat outta hell
Stockton Avenue gets hollow and mean
and on a big day its works like a machine
outside Stockton it gets hot like a glove
Swift street, street and the Mitchell's clove
big steamer went fishin' wish you were a trout
Brass Mountain gets so hollow when two dudes paddle out
A huge summer time south swell hits me under my hotel
now the surf's up boys a rock can be found
up and down the coast checking out the spots that I love the most
