

Don't You Forget It

[Nick Waterhouse](#)

I think I've found a girl that I can talk to
Yeah I think I've found a girl that just might replace you
She don't care if I got bread
And I remember the things she said
Yeah I think she will do
Uh-huhOh
Don't you forget it
Oh
Don't you forget it
'Cause when the summertime leaves your town
You know you ain't gonna find me around
I'll be out there to follow the sun
No I ain't gonna take no one
If you thought that you tied me down
Well girl it's high time that you found
Only thing left for you to see
You'll never find another man like me
