

# Strange Sight

KT Tunstall

Strange sight  
You stand in the light  
You're wrong but you're right  
My hearts beating wildly  
Strange  
How I'm scared but delighted  
Afraid but excited too You have a cold heart  
You're reckless and distant  
But I'll be persistent  
I will understand you  
Strange  
How I'm drawn to the danger  
I'll reach out my hand to you  
Do you long to be left all alone?  
Set apart with a heart made of stone  
Let me help, let's begin  
Let me learn, won't you let me in?  
All the light, let it show You are a strange sight  
Some new kind of wonder  
With good hidden under  
I'm sure that it's true  
Strange  
How your dark doesn't faze me  
No, I won't give up on you Do you long to be left all alone?  
Set apart with a heart made of stone  
Let me help, let's begin  
Let me learn, won't you let me in?  
All the light, let it show  
If you're caught in the shadow then turn around  
Lost in the darkness, you will be found  
If you hear my voice, follow the sound  
'Cause I'm here to guide you home Do you long to be left all alone?  
Set apart with a heart made of stone  
Let me help, let's begin  
Let me learn, won't you let me in?  
All the light, let it show Do you long to be left all alone?  
Set apart with a heart made of stone  
There's a light that you shine  
There's a love, I see it in your eyes  
All the dark, let it go  
You're not alone
