

# People Pleaser

## Korn

My wheels keep spinning backwards  
It's spinning round and round and round  
My heart can't sometimes take it  
Bleeding till it's broken down Why can't someone fucking tell me  
What the fuck's going on  
Why don't we love each other  
Constantly beating others down And now I find it hard to live my own life  
Pleasing everyone  
While I'm just dead inside  
I wake up I can't breath  
I grab my sheets real tight  
What the fuck is happening to me  
Damn right I can't live this life Can someone please fucking tell me  
What the fuck's going on  
Why don't we love each other  
Constantly beating others down And now I find it hard to live my own life  
Pleasing everyone  
While I'm just dead inside You wanna take me away  
Wanna take me away  
To die  
Life wants to take me away  
It's gonna take me away  
Tonight  
Oh my god  
Can't take this shit  
Feeling like a lunatic  
Holding your problems  
Inside my head  
Holding motherfucking shit  
Feeling like a lunatic  
A place for your bullshit to hide  
A place for your bullshit to hide  
A place for your bullshit to hide  
A place for your bullshit to hide  
A place for your bullshit to hide Can someone please just tell me  
What the fuck's going on  
Why don't we love each other  
Constantly beating others down And now I find it hard to live my own life  
Pleasing everyone  
While I'm just dead inside Just dead inside  
Just dead inside  
Just dead inside

I'm just dead inside
