

# Perfect Nightmare

Shontelle

Sometimes we fight  
Sometimes I cry,  
Why don't I  
Just tell him goodbye  
Sometimes I should  
But sometimes I don't  
Build up the strength to  
Say that it's wrong  
Sometimes I hate  
Sometimes I love  
Sometimes I hurt  
Sometimes I don't  
Sometimes I wait  
For him to change  
But it's okay  
I've disguised the pain  
And I don't ever wanna leave him alone  
They say i'm brainwashed but i'm in love  
With this man  
Yeah  
Keep telling myself that it's not worth it  
I already know I don't deserve it  
But if it's from you I don't mind hurting  
This is my perfect nightmare  
So when will I wake up and scream  
No way  
But if it's from you I don't mind hurting  
This is my perfect nightmare Perfect nightmare Sometimes I keep my cool  
Sometimes I let him know  
Sometimes I even pack my bags to walk out the door  
Sometimes I feel safe  
Sometimes I really don't  
Sometimes I promise that i'm ready to let him go  
But I don't ever wanna leave him alone  
They say i'm brainwashed but i'm in love  
With this man  
Ohh ohhh Keep telling myself that it's not worth it  
I already know I don't deserve it  
But if it's from you I don't mind hurting  
This is my perfect nightmare  
So when will I wake up and scream  
No way But if it's from you I don't mind hurting

This is my perfect nightmare  
Perfect nightmare Hoping he's changing  
But i'm scared he's not  
Can't see a way to leave  
Help me open my eyes Keep telling myself that it's not worth it  
I already know I don't deserve it  
But if it's from you I don't mind hurting  
This is my perfect nightmare  
Perfect Keep telling myself that it's not worth it  
I already know I don't deserve it  
But if it's from you I don't mind hurting  
This is my perfect nightmare  
So when will I wake up and scream  
No way  
But if it's from you I don't mind hurting  
This is my perfect nightmare  
Perfect nightmare  
No way  
But if it's from you I don't mind hurting  
This is my perfect nightmare  
Perfect nightmare  
Perfect nightmare
