

This Luv

Donell Jones

Boo, do you mind if I take this seat right here?
'Cause you sittin' alone
If you sippin' on Cris, girl, I'm buyin', yeah
I heard you got a nigga, don't lie, ain't got to front for me
I'll give you these digits that you can call
You can hit me on my cell if I'm not home
Are you down to swingin' up with me
Or could it be blinded by all this ice you see?
I'm willing to give you all this love I got
But no relationships involved
Gotta keep it strictly physical
All this luv
All this luv waiting just for you
So don't pass it up,
'Cause you'll regret it, boo
And I'll be patiently waiting to hear from you
And girl, you gotta be the one, girl
You gotta be the one, yeah yeah yeah
See, I don't mind makin' house calls
If you wanna go blow for blow
Girl, whatever you down for I'm tryin'
It won't hurt him if he don't know, that's how it's got to be
I understand you got a nigga that lives at home
But I wanna be that cat that makes you moan
So are you down to swingin' up with me
Or could just be blinded by all this ice you see
I'm willing to give you all this luv I got
But no relationships involved
Gotta keep it strictly physical
All in luv
All this luv waiting just for you
So don't pass it up
'Cause you'll regret it, boo
And I'll be patiently waiting to hear from you
And girl, you gotta be the one, girl
You gotta be the one
All this luv waiting just for you
So don't pass it up
'Cause you'll regret it, boo
And I'll be patiently waiting to hear from you
And now you gonna be the one
You gonna be the one, oh yeah yeah yeah
Yeah, I'm here patiently waiting
'Cause there's so many things we could do
So many things we could share
But with no strings attached
Hehe, you like that?

You gonna be the one, girl, yeah yeah yeahAll this luv waiting just for you
So don't pass it up
'Cause you'll regret it, boo
And I'll be patiently waiting to hear from you
Are you gonna be the one to get it
'Cause you gonna be the oneAll this luv waiting just for you
So don't pass it up
'Cause you'll regret it, boo
And I'll be patiently waiting to hear from you
And now you gonna be the one
You gonna be the one, yeahAll this luv waiting just for you
So don't pass it up
'Cause you'll regret it, boo
