

Good to Be Bad

Dove Cameron, Sofia Carson, Booboo Stewart, Cameron
Boyce, Jadah Marie & Anna Cathcart

From the north to the south
From the east to the west
Lost boys, lost girls you all know you're the best
Hit the streets, it's your day
Turn it up, now's your chance
It's time to get up on your feet and dance
Anybody wanna be like us?
Everybody wanna be like us!
All the boys from Auradon and the girls 'cause they know what's up
Your life could change today, your life could change today
These streets named after us because we paved the way
Everyone, come and take your shot
Now's the time, show 'em what you got
'Cause everyone's gonna get their chance
Accept that being from the Isle is bad
Well it's good to be bad
And we're proof of that
Used to be lost, now we're on the map
Used to steal snacks, now we're giving back
Remember that
(It's good to be) Bad
If you've got pride, raise your V's up high
Wave 'em wide, side to side, feel the vibe
It's good to be bad
I wanna see you all up your block, I wanna see you all up your block
Show your pride, let me hear you shout
We're from the Isle of the Lost
We're here to celebrate, we're here to elevate
If you down then make your move, but you best not hesitate
Today's a day that you won't forget
The best to come ain't happened yet
Take a bow, it won't be your last
You're from the Isle if anybody asks
It's good to be bad
And we're proof of that
Used to be lost, now we're on the map
Used to steal snacks, now we're giving back
Remember that
(It's good to be) Bad
If you've got pride, raise your V's up high
Wave 'em wide, side to side, feel the vibe

It's good to be bad
They can try to deny style, but we were born this way
'Cause you can take the VK out of the Isle
But you can't take the Isle out the VK
If you wanna make it hype, not a moment to waste
Make it loud, make it live, make it jump to the bass
Make it what you want, but you better make you case
'Cause the Isle makes us and were running this place
When I say V, you say K
V, K, V, K
When I say all, you say day
All day, all day
When I say V, you say K
V, K, V, K
When I say all, you say day
All day
Come on
(It's good to be) Bad
It's good to be bad
And we're proof of that
Used to be lost, now we're on the map
Used to steal snacks, now we're giving back
Remember that
(It's good to be) Bad
If you've got pride, raise your Vs up high
Wave 'em wide, side to side, feel the vibe
It's good to be
Bad
