

Crazy Ride

Michelle Branch

Goodnight big moon
Sweet dreams baby
If I could have one wish tonight
It would be
You always keep
Keep the starlight in your eyes
One day you'll grow up
One day you'll walk
In this big world on your own.
There'll be days when
Your heart'll break and
You'll swear that all your strength is gone. But then you'll find a way to carry on
Heaven knows that it's a crazy ride
It's never perfect all the time
It'll pull you down and send you flyin'
So baby hold on tight
On this crazy ride So don't be scared when
You're in the darkness
The sun is swallowed by the ground
You think it's gone But it's hangin' on
It's just on the other side of town. Even when it's lost, it can be found Heaven knows that it's a
crazy ride
It's never perfect all the time
It'll pull you down and send you flyin'
So baby hold on tight
On this crazy ride.
Heaven knows that it's a crazy ride
It's never perfect all the time
You know it's just a crazy ride
It's never perfect all the time
It'll pull you down and send you flyin'
So baby hold on tight
On this crazy ride. Goodnight big moon
Sweet dreams, baby.
