

Fall in Love

KeKe Wyatt

Tell me are you ready?
For what I got and how I gotta planned out
Tell me that you want it and you can't wait for me to put my hands on you
Boy, you feel that heat all on your body
And you waiting for me to get it started
Oooh oh
And your body's waiting on me You can't wait for me to put my hands on
Your body's calling me, you got to handle
Tell me where and how you want it
You don't know the best cause you ain't had me yet
And when we finish making sweet love baby
You gon' fall in love with me
And baby tonight, you gon' fall in love with me
Baby, put your hands on me
Cuz, I wanna feel good
It's the way that you grab my waist in the place that you should
Boy, you know my body is calling your name
Every night is something new your touch is not the same
You keep me excited and surprised every day
I can't wait for you to put your hands on me (Baby, yeah) You can't wait for me to put my hands
on
Your body's calling me, You got to handle
Tell me where, and how you want it
You don't know the best cause you ain't had me yet
And when we finish making good love baby
You gon' fall in love with me
And baby tonight, you gon' fall in love with me Baby I feel it, I know you feel it too
Baby I want it, I know you want it
Toooo You can't wait for me to put my hands on
Your body's calling me, you got to handel
Tell me where and how you want it
You don't know the best cause you ain't had me yet
And when we finish making good love
You gonna fall in love with me
Baby tonight, you gonna fall in love with me
Baby don't you hear me now
Gonna, fall in love
(la, la, la, la) You gonna fall in love with me
(With me baby, yeah) You gonna fall in love with me
You gonna want more and more, more and more, more
Moreee of me
