

Perfect Day (feat. B-Case & Shontelle)

DJ Antoine & Mad Mark

I wake up in the morning, no worries feel in the sky
We caught it all like, still no clouds up in the sky
My friends are all around me, we're surfin in the sun
Let's get this party started, we're gonna have some fun
This is just a perfect day
We're living like there's no tomorrow
This is just a perfect day
Let't celebrate, forget all your sorrows
(forget all your sorrows, forget all your sorrows...)
This is just a perfect day
We're living like there's no tomorrow
This is just a perfect day
Let't celebrate, forget all your sorrows
I was dreaming bout tonight
My baby by my side
The features of fiesta... in my ride
We're gonna get it started
Them hands up in the sky
This day is just too perfect
Don't get wasted, get high
This is just a perfect day
We're living like there's no tomorrow
This is just a perfect day
Let't celebrate, forget all your sorrows
This is just a perfect day
This is just a perfect day
We're living like there's no tomorrow
This is just a perfect day
Let't celebrate, forget all your sorrows.
