

Already

Omarion

Thank you, thank you for coming,
You could be with anyone else in the world
But you came with me
Girl I'm so away just for you
I'll be so patient with you
We don't need to rush we can take our time
You and me, you and me, you and me
You're here darling, and you're doing already
This song on your heels already
I don't know 'bout you girl but I'm ready
I can have a motherfucker helicopter scooping for the water to the land
Baby hold on
[?] more important bitches call me, not know how do the mess
Baby show up
You telling me you might change
But I tell you not to
Baby I restyle girl with no one
Girl I'm so away just for you
I'll be so patient with you
Don't need to rush we can take our time
You and me, you and me, you and me
You're here darling, and you're doing already
This song on your heels already I don't know 'bout you girl but I'm ready
