

Scrape

Blue Stahl

Bring it down to the wire
Parasite messiahs
Set them all on fire
Bring it down to the wire
And scrapeBring it down to the wire
Parasite messiahs
Set them all on fire
And scrape
ScrapeThey force it in and you swallow
Like words and cheap advice
I'll burn it all just to light your eyes
Skin-tight rewards and vendetta (Vendetta)
Round zero in a desperate light
I love the violence inside your mindBring it down to the wire
Parasite messiahs
Set them all on fire
And scrape
Scrape (Want you)
Scrape (Need you)
Scrape (Break you)
Bring it down to the wireThere is an art to infliction
Head-spill and homicide
I'll burn it all just to light your eyesAll that you dream of, they're ruined
My sweet little libertine
We'll mix it all with gasoline
Bring it down to the wire
Parasite messiahs
Set them all on fire
And scrape
Scrape (Want you)
Scrape (Need you)
Scrape (Break you)
Bring it down to the wireWitches got some vicious candy kisses for apocalypse,
Watch it closer as it's slipping away,
Naked trigger finger, make linger just below the hips,
Watch it fall as humanity is spiraling down
To the groundBring it down to the wire
Parasite messiahs
Set them all on fireBring it down, bring it down to the wireScrape
Scrape
ScrapeBring it down to the wireScrape (Want you)
Parasite messiahs (Need You)

Scrape (Break you)
Set them all on fireBring it
Down!
