

# Eulogy

## Saves The Day

I see your eyes  
In my mind  
But the moment fades  
Slips away  
And when I wake  
I curse the day  
Wanna torch the sky  
See it fallin' in flames  
I'd burn up to see you again  
I'll carve out my lungs and it's all just to see you again  
Sick in my gut from the poison I drank to forget  
And since you've gone  
I can't forget  
What I didn't say  
That it's much to late  
I feel you here  
In my heart  
But sometimes I fall  
I'm gonna crawl in the dark  
I'll carve out my lungs and it's all just to see you again  
I'm sick in my gut from the poison I drank to forget  
I'm trapped in my withering skin  
Oh no no  
To pride and remember the dead  
I'll dig my grave and wait here for you to realize  
I'll carve out my lungs and it's all just to see you again  
I'm sick in my gut from the poison I drank to forget  
You live me empty inside  
I try not to hold on
