

# Don't Think Twice

Allister

(2x)

Take these promises I've made and hold them strong  
Don't think twice about those things that I did wrong 'Cuz I'd never do something intentionally  
just to hurt you

And I've stared at the sky and asked myself why  
You've become like an angel to me Still the days and the weeks and the hours go by

And the minutes they just fade away

And I'm missing you every second of time

And it hurts cuz your so far away

All the tears that I've cried when your not by my side

And the nights I dream of

Kissing you goodnight are on my mind 'Cuz I'd never do something intentionally just to hurt you

And I've stared at the sky and asked myself why

You've become like an angel to me

Still the days and the weeks and the hours go by

And the minutes they just fade away

And I'm missing you every second of time

And it hurts cuz your so far away

All the tears that I've cried when your not by my side

And the nights I dream of

Kissing you goodnight are on my mind
