

# Bones

Alex G

You struck me like a bolt of lightning  
Running through me in the dead of night and I know it  
I know it

Now I see you when I close my eyes you're  
The only reason why I live and die, and I know it  
I know it And I feel you down in my soul

You rattle my bones  
It's running me over and over  
And I feel you burning my heart  
It rattles my bones  
You're running me over and over  
Light me up in a burning fire  
See the smoke written in the sky that I know it  
I know it

And I'm never gonna try to fight it  
You're the reason why I live and die and I know it  
I know it And I feel you down in my soul

You rattle my bones  
It's running me over and over  
And I feel you burning my heart  
It rattles my bones

You're running me over and over. (Oh you're running me over)  
(You're running me over)

(You're running me over, woahhh) You're runnin' me over  
You're runnin' me over  
You're runnin' me over.  
You're runnin' me over  
You're runnin' me over

You're runnin' me over over You're runnin' me runnin' me  
Runnin' me runnin' me

Running me over and over You're running me over!  
You're running me over!

You're running me over and over! And I feel you down in my soul  
You rattle my bones

It's running me over and over And I feel you down in my soul  
You rattle my bones

It's running me over and over  
And I feel you burning my heart

It rattles my bones  
You're running me over and over You rattle my bones

Yeah! Woah! My bones, yeah my bones  
You rattle my bones
