

Sometimes

Walk Off the Earth

If only you could love me sometimes
We'd rule the world together sometimes
You know we'd fight forever sometimes
And end our wars together sometimes You're at the top of my list
Higher than milk and eggs
Higher than Hughy's fist You keep my temperature hot like I was feverish
I'm not a business man but let's do business chick
I'm like a ceiling fan, I keep you cool 'n shit
I dismiss promiscuous miss' like Jehovah's witness does to Christmas
Together as one our lives are the wickedest
Apart our lives are hideous
If only you could love me sometimes
We'd rule the world together sometimes
You know we'd fight forever sometimes
And end our wars together sometimes If only you could love me sometimes
We'd rule the world together sometimes
You know we'd fight forever sometimes
And end our wars together sometimes I got you, I got you boy
Sometimes the love try to be the only friend to ya
It causes stress on ya but gets you out of bed like a rooster
Cut, forgetting all my worries like I'm high
You make me feel taller than the sky
Together as one our lives are the wickedest
Apart our lives are hideous
If only you could love me sometimes
We'd rule the world together sometimes
You know we'd fight forever sometimes
And end our wars together sometimes If only you could love me sometimes
We'd rule the world together sometimes
You know we'd fight forever sometimes
And end our wars together sometimes I got you, I got you boy
Sometimes the love dies and that's the only end you see,
But not for you and me, I got you 'till the ending
If you call out in distress or need, I'll be there more than a Mormon marries Together as one our
lives are the Wickedest
Apart our lives are hideous If only you could love me sometimes
We'd rule the world together sometimes
You know we'd fight forever sometimes
And end our wars together sometimes If only you could love me sometimes (I got you)
We'd rule the world together sometimes (I got you)
You know we'd fight forever sometimes (I got you)
And end our wars together sometimes

I got you, I got you boy
I got you, I got you always
