Never Sleep Alone (feat. Tess Comrie)

Kaskade

You know I'm tired

of living like a ghost god only knows I've given more than most I cover up scars that emptiness has caused when the chemicals take will it be me you dream of there's a heartbeat somewhere love, I'm gonna find you there in the darkness sleepless love, I wanna have you near we never sleep alone never sleep alonenever sleep alonenever sleep alone you shake me up the moment before sleep you're calling out the demons inside me and when they're gone the hours I'm awake I take these pills and pray to god they'll take there's a heartbeat somewhere love, I'm gonna find you there in the darkness sleepless love, I wanna have you near we never sleep alone never sleep alone never sleep alone never sleep alone ... never sleep alone we never sleep alone never sleep alone never sleep alone never sleep alone Song Discussions is protected by U.S. Patent 9401941. Other patents pending. Lyrics provided by http://www.1songlyrics.com/
