

# Power Over Me (MEDUZA Remix)

## Dermot Kennedy & Meduza

Want to be king in your story  
I wanna know who you are  
I want your heart to beat for me  
Oh  
I want you to sing to me softly  
'Cause I don't want them to die  
It's all that love ever taught me, oh I All in a rush out  
All out of breath now You've got that power over me, my my  
Everything I hold dear resides in those eyes  
You've got that power over me, my my  
The only one I know the only one on my mind  
You've got that power over me (my my)  
Power over me (my my)  
Got that power over me  
Remember the lake in the moonlight?  
Remember you shivered the [?]  
I'll never forget what you looked liked on that night  
I know that times gonna take me  
I know that things gonna come  
I just want the devil to hate me  
Oh All in a rush out  
All out of breath now You've got that power over me, my my  
Everything I hold dear resides in those eyes  
You've got that power over me, my my  
The only one I know the only one on my mind  
You've got that power over me (my my)  
That power over me (my my)  
You got that power over me  
It was all laid down  
It was all around So we hide away and never tell  
You decide that darkness knows you well  
A lesson of love, all that it was  
I need you to see You've got that power over me, my my  
Everything I hold dear resides in those eyes  
You've got that power over me, my, my  
The only one I know the only one on my mind  
You've got that power over me I know that you let her down, now, let her down You've got that  
power over me, my my  
Everything I hold dear resides in those eyes  
You've got that power over me, my, my  
The only one I know the only one on my mind

You've got that power over me
