

# 1000 Xans (feat. Themind)

Mick Jenkins

I mean I'm only smoking weed because I'm stressing heavy  
All this water in me  
I just pray the Lord'll bless my levies  
Lessons let me know I shouldn't be so careless  
In some circles misconceptions make 'em think my inspiration herbal, it's not  
I mean sometimes it is  
I mean sometimes I'm tweaking and laughing 'til I hurt ribs  
And then sometimes I'm speaking of passion and my purpose  
Forever creeping until I'm peaking through valleys and skies  
That's the heavens, I mean I'm trying to get high  
Some claiming cloud 9's, I'm floating around 11s  
Rose grown in the alley  
No stems for the thorns  
Cause those buds is from Cali  
I'm thinking about it different than y'all  
Poker face but I'm thinking appropriation wherever approached, with statements of how high I  
go  
I mean the buzz could last a lightyear  
And thinking all the time bout how they never let you shine  
And leave you mindboggled  
I played boggle at a young age  
So a nigga know words  
Met Mary when I got to know her  
See we would flirt, it's on the daily now  
Damn near made that girl my lady now  
Without a nigga just might go too crazy  
How it come to this, uh  
It's just the motherfucking drugs  
I can't shake it, it got me shaken  
I feel like I'm breaking everything I've touched  
It's just the motherfucking drugs  
I can't shake it, it got me shaken  
I feel like I'm breaking everything I've touched 1000 Xans'll make you sleep good  
What you drinking, don't forget you gotta eat good  
Cause food is a whole ass drug  
I mean Ronald is a old ass plug  
And he chopping rocks for cheap to keep your whole ass stuck  
And the days is a fucking maze through the smoke screens  
I'm amazed how we never gave, blowing smoke rings  
For the pain tryna acclimate  
Give a fuck bout accolades  
Ginger for your shorty, treat the water like a cabernet cheese

At the fact that we see  
How they lie to our faces and still we choose to believe  
I've been exposed to new spaces, it's getting harder to breathe  
The black Neo of this Matrix  
Directing homeostasis  
But still all my homies bleed  
No pay phones it's getting harder to leave  
Tobacco leaves, run the trees in the breeze these days  
Rolling them shits with ease these days  
Only thing that put greenSLIME at ease these days  
And they still claiming it's the easy way, yeah  
Only thing that put greenSLIME at ease these days  
They still claiming it's the easy way  
It's just the motherfucking drugs  
I can't shake it, it got me shaken  
I feel like I'm breaking everything I've touched  
I've never been afraid of heights  
I've never been afraid of lights  
I've often got lost in flights drug induced  
Fall asleep in mistransition, everyday I wake up wishin'  
I can barely see the sun shine through  
Cause it's the motherfucking...drugs
