

Before I Go (feat. Leo Napier)

GRiZ

Well I've been feelin like my yesterday is gone,
my braincells are functioning like cheech and chong,
I've been living present future but no past,
I think it's time to kick these drugs and do it fast. But the music is the drug that brings content,
it's a high i didn't buy it was heaven sent,
I used to cry my blues for my fellow man,
now i sing the blues but it's only cause i can. Thats why i'm gonna leave ya'll,
today.
sick and tired of being a steeple,
a conductor for your pain.
and I don't even sleep no,
I self medicate.
but i'll sing one more song, before I go away.
Well I've been feelin like my yesterday is gone
now i sing the blues but it's only cause i can see i've been tryna make my mind up but i can't,
cause when i'm high baby i can lie like a president.
so i get high and tell myself the pain aint real,
but without pain the song i sing ain't got no feel. so i'm livin present future with no past,
i an't sure how much longer I'm gonna last
and as long as i ain't dead i'll sing my song,
and i sing it for the people till i'm gone
Thats why i'm gonna leave ya'll,
today.
sick and tired of being a steeple,
a conductor for your pain.
and I don't even sleep no,
I self medicate.
but i'll sing one more song, before I go away.
