

The Damned

Chevelle

I think you and I should leave right out that door
The damned can have what we have built
We'll go sneaking out at night to see what we need
How wrong were they
Took a moment to believe
How tricked was I
I never want to leave
Coursing through these veins I'm locked on you
I've chose to join this zombie zoo
And never could I've known I'd crave a bite quite so
much
Hey
How wrong were they
Took a moment to believe
How tricked was I
I never want to leave
