Erasure (feat. Waxahatchee & Stephin Merritt)

Superchunk

ErasureSuperchunkAnd now it's night
But I've seen our silhouette fade
And weaken to gray
We used to be sharp against the light
Our empathy weaponized

Our history bleaching out during the dayWhat you're after, what you're after

Erasure

Erasure

But we're the weeds

And you need a path now clear for you

A single golden tear for you won't fall

As if that's all we have to leave

To bleed, for the blank you want to fill

The haunt you want to kill won't die

Can't you see? What you're after, what you're after

Erasure

Erasure

Hate so graceless and so cavalier

We don't just disappear

Shifting shapes you're just an auctioneer

But we're still hereWhat you're after, what you're after

Erasure

Erasure
