

# Born for This

## The Score

I'm checking my vital signs  
Drawing my battle lines  
Going to war again Feeling the rhythm inside of my chest  
All I need is just a pen  
I know I was born for this  
I know I was born for this Don't care for the critics  
My words are like physics  
A force that they can't stop  
They just don't get it, I think they forget  
I'm not done till I'm on top  
I know I was born for this  
I know I was born for this  
I believe, I believe  
We can write our story  
I believe, I believe  
We can be an army We are the warriors, who learned to love the pain  
We come from different places but have the same name  
'Cause we were born for this  
We are the broken ones, who chose to spark a flame  
Watch as our fire rages, our hearts are never tame  
'Cause we were born for this I've struggled for years and  
Through all of the tears  
I've faced the doubts I hide  
I never gave into my fears deep within  
'Cause I heard my voice inside  
I know I was born for this  
I know I was born for this  
I will never lose my voice  
If I cut out all the noise  
I know, I was born for this  
I know, I was born for this These words that I write are for someone like me  
To know you're not alone  
The moves that you make ya they come with mistakes  
Don't ever lose your hope  
Just know, you were born for this  
Just know, you were born for this We are the warriors, who learned to love the pain  
We come from different places but have the same name  
'Cause we were born for this  
We are the broken ones, who chose to spark a flame  
Watch as our fire rages, our hearts are never tame  
'Cause we were born for this We were born for this

We were born for this
