

# Ashes

## Pepper

It's been so long, it's hard to breathe when the trust is gone  
A face of steel just melts away in the weather  
You got a lot to weigh so weigh it  
If you've got a lot to say just say it  
Aren't you tired of wasted fuel  
So now I hand the fuse to you Burn it all let's burn it all  
Let fire fall and buy the fall  
Whats done is done it's in the past  
Its ashes  
I'm tired of you, you're tired of me  
I hate the things you said to me  
Now here's the chance to take it back  
It's ashes, as ashes  
Maybe I should drive home  
Far from sober  
Maybe I should sleep alone  
Cause I don't have a rubber  
You got a lot to weigh so weigh it  
If you got a lot to say just say it  
Aren't you tired of wasted fuel  
So now I hand the fuse to you Run away and see, how much it really means to me  
Oh my god, who in the hell has been washing your brain  
Just lose the girl and start again  
Maybe then, maybe then  
Maybe then, maybe then  
Let's burn it all, let's burn it all  
Let fire fall and buy the fall  
Whats done is done it's in the past  
It's ashes  
I'm tired of you, you're tired of me  
I hate the things you said to me  
Now here's the chance to take it back It's ashes, oh it's ashes, ashes  
It's ashes, ashes  
It's ashes, ashes  
It's ashes, ashes  
It's ashes, ashes  
Ohh ashes
