My Peoples (feat. Raheem DeVaughn)

DJ Jazzy Jeff

I've seen streets, we're youth
Are forced to take the long way home
And I've seen mothers mourn

loss of them only ham Ctill I believe we are given nothin! more than

The loss of there only bornStill I believe, we are given nothin' more than we can beg
A vision is only blurred when life seems unfair

Who am I to judge the man with the needle in his veins

When he's just chasing freedom to escape the painOf the worlds fast paced pipe dreams and shortcomings

He's just trying to make do and find a way out of nothing

It's like, we damned if we do and damned if we don't

And it's a very thin line between respect and being brokeAnd being one red button away from

World War III

Always called the minority

And always, always pulled over

Facing police brutality

Why is every street a living hell?

Probably 'cause they want us to fail

Yeah, three strikes and surely back to jail

Like the slave ships when they sailYears and years of civil rights chasing to pass that bill But ask yourself, people have we changed or are we standing still

Down and out struggling in this concrete jungle

One check away from starvation, povertyBut they say being free is about speaking your mind Prophesies too much and that's where they draw the line

A line as thin as the line between war and peace

A line as thin as the line between west and eastOne button away from World War III

Being called a minority

And being pulled, always being pulled over

And subject to brutality

Why is every street like a living hell?

Probably 'cause they all just want us to fail

And three strikes and surely back to jail

Like the slaves ship when they sail but they don't know thatMy people whose pains are cornered My peoples all shapes and colors

My peoples got more peoples with ills

That's more peoples, more siesters and brothersMy people stay strong as an ox

My peoples will never fail

My peoples will always remain

Remain with a story to tellMy peoples was paints on the door

My peoples all shapes and colors

My peoples got more peoples with ills

That's more people, more sisters and brothersMy people stay strong as an ox My peoples will never fail

My peoples will always remain
Remain with a story to tellMy peoples was paints on the door
My peoples all shapes and colors
My peoples got more peoples in jail
That's more people than sisters and brothersMy people stay strong as an ox
My peoples will never fail
My peoples will always remain
Remain with a story to tellMy peoples was paints on the door
My peoples all shapes and colors
My peoples got more peoples with ills
More people, more sisters and brothersMy people stay strong as an ox
My peoples will never fail
My peoples will always remain
Remain with a story to tell
