

When the Night Falls

Chromeo

When the night falls, oh yeah
You can tell by the way that you feel
Make the right calls, oh yeah
And just hope that she remembers you still I'm searching for a good time
In a city where there's nobody else around
And I know it's been a little awhile
But your number is the only one I found Now we've had our share of ups and downs
In the years I came through your town
But let's put it all to rest
And let's just have a night of one on one
When the conversations have begun
Just put your head on my chest
There's something about you, girl
And it's rather strange
I want come back to you, girl
And rekindle the flame When the night falls, oh yeah
You can tell by the way that you feel
Make the right calls, oh yeah
And just hope that she remembers you still Well you probably think I'm a fast-talking romantic
With a high-fallutin' ways
But it's all about the impression you made
On the first time I met you
That stayed with me for days
And now I want that feeling back
But I'm not sure where to get it
But you have the answer to that
And you say it's nothing but fun and games
But over the phone it's not the same
So let's try to cross paths There's something about you, girl
And it's rather strange
I want come back to you, girl
And rekindle the flame When the night falls, oh yeah
You can tell by the way that you feel
Make the right calls, oh yeah
And just hope that she remembers you still Ooh hooh ooh hooh
Ooh hooh ooh hooh, yeah When the night falls, oh yeah
You can tell by the way that you feel
Make the right calls, oh yeah
And just hope that she remembers you still
