Before Today

Everything But the Girl

I don't want excuses

I don't want your smiles

I don't want to feel like we're apart a thousand miles And I don't want your attitude

I don't want your things

I don't want a phone that never ringsI want your love

And I want it now

I want your love

And I want it nowI don't want your history

I don't want that stuff

I want you to shut your mouth

That would be enough

I don't care if you've been here before

You don't understand

Tonight I feel above the law, I'm coming into landI want your love

And I want it now

I want your love

And I want it nowMy heart is that much harder, now

That's what I thought, before today

My heart is that much harder, now

And I thought that it would stay that wayBefore todayBefore todayI don't want a phone that never ringsI want your love

And I want it now

I want your love

And I want it now

I want your love
