

Liberty

The Interrupters

Drones in the skies, government lies
keeping them out ah tell me why they violate rights
Blue red lights beautiful fucks on my street at night Hey Where did my liberty go?
Where did my liberty go?
Now they're taking over and they got complete control,
Where did my liberty go? Poverty's high, barely get by
They want you to suffer before you die
There's no moving up, too many mouths to feed
take all the words from the ones who mean it
Where did my liberty go?
Where did my liberty go?
Now they're taking over and they got complete control,
Where did my liberty go? Better get down, don't speak your mind
Nod your head like everythings fine
Dont compromise it cause if they hear you
THEY THEY DISAPPEAR YOU Where did my liberty go?
Where did my liberty go?
They took him away, they got complete control,
Where did my liberty go? Drones in the skies, government lies
keeping them out ah tell me why they violate rights
Blue red lights beautiful fucks on my street at night Hey
Where did my liberty go?
Where did my liberty go?
Now they're taking over and they got complete control,
Where did my liberty go?
