

Digital

Imagine Dragons

[Intro]

You know how we do[Verse]

I wanna a new world without the order

I wanna resurrect and live a little shorter

I want it heavy

I want the fury

I want to be like the judge and the jury[Pre-Chorus]

From the outside, everything moves right

From the outside, from the outside

From the outside, everything moves right

From the outside, from the outside

[Chorus]

We are, we are the face of the future

We are, we are the digital heartbeat

We are, we are the face of the future

We don't wanna change, we just want to change everything

Hey, hey, hey, hey, digital, digital

Hey, hey, hey, hey, digital heartbeat

Hey, hey, hey, hey, digital, digital

We don't wanna change, we just want to change everything[Verse]

I wanna a new world without the order

I wanna resurrect and live a little shorter

I want it heavy

I want the fury

I want to be like the judge and the jury

[Pre-Chorus]

From the outside, everything moves right

From the outside, from the outside

From the outside, everything moves right

From the outside, from the outside[Chorus]

We are, we are the face of the future

We are, we are the digital heartbeat

We are, we are the face of the future

We don't wanna change, we just want to change everything

Hey, hey, hey, hey, digital, digital

Hey, hey, hey, hey, digital heartbeat

Hey, hey, hey, hey, digital, digital

We don't wanna change, we just want to change everything[Bridge]

And they, they've been sayin', they've been sayin' the same thing

And they, they've been sayin', they've been sayin' the same thing

And they, they've been sayin', they've been sayin' the same thing

And they, they've been sayin', they've been sayin' the same thing

And they, they've been sayin', they've been sayin' the same thing
And they, they've been sayin', they've been sayin' the same thing
And they, they've been sayin', they've been sayin' the same thing
And they, they've been sayin', they've been sayin' the same thing[Chorus]
We are, we are the face of the future
We are, we are the digital heartbeat
We are, we are the face of the future
We don't wanna change, we just want to change everything
Hey, hey, hey, hey, digital, digital
Hey, hey, hey, hey, digital heartbeat
Hey, hey, hey, hey, digital, digital
We don't wanna change, we just want to change everything[Outro]
Hey, hey, hey, hey, digital, digital
Hey, hey, hey, hey, digital heartbeat
Hey, hey, hey, hey, digital, digital
We don't wanna change, we just want to change everything
