

# Gimme Dat (feat. Armageaddon)

## Terror Squad

Lock that fuckin' door, yo  
Lock all that shit Y'all muthafuckas can't hold me back  
Holdin' gats drunk off of cognac  
Laughin' at life and how my goal be makin' the hoes react  
Ridin' in cars, out to get me eight full of shinin' stars  
Overwhelmin', any average rapper will find it hard  
To deal with the way my Squad puts metal to flesh  
We rebels to death, leakin' body heat, decimals less  
My shotie completes the measure of death, I'm hittin' your chest  
I'm only 1100 double threat, beware of the rest  
Terror Squad's everywhere like weed smoke  
If my pump shotie was sweet chokes  
I'd twist the whole place with three strokes  
Dump this wild sawed-off barrel  
I send your soul to follow the blast  
And see how far the noise will travel  
Big Eaddie's name never lost his value  
I told you before on Joe's album  
We been illin' since the holy pharaohs  
Run out of heat, I still burst you with bangers  
Believe, me and violence connect and we have our own personal language  
Money, gimme dat  
Power, g-gimme dat  
Guns, gimme dat  
Freedom, g-gimme dat  
Pussy, gimme dat  
Drugs, g-gimme dat  
Gimme dat  
Respect, better gimme dat  
Money, gimme dat  
Power, g-gimme dat  
Guns, gimme dat  
Freedom, g-gimme dat  
Pussy, gimme dat  
Drugs, g-gimme dat  
Gimme dat  
Respect, better gimme dat  
Hey yo, your era's over  
And your peoples lack the charm or persona  
The sound of my chrome be bangin' from home to Arizona  
My gun be clickin' like your chain on my neck, claim my respect  
Give me a pound or feel the pain in your chest  
I only bang with T.S.  
That's some Squad that God returned to the surface  
Bustin' scary-ass burners that burst through your epidermis  
Niggas respect the verses, my shit is heat, so I'ma set the furnace

To burn whoever's yearnin' to hurt thisNigga, tell me I ain't bringin' the pain  
If I ain't leave in a train  
I'm probably fleein' from puttin' 3 in your brain  
See what I'm sayin', it's all about this  
Guns, murder and chips and I gathered all in the palm of my fistThis is who Armageddon is  
Raw to the brain, I'm sort of insane  
But yet in never fall in the game  
It's not enough, I need to fatten my stacks  
More guns, g-g-gimme dat  
More power and respect, gimme datMoney, gimme dat  
Power, g-gimme dat  
Guns, gimme dat  
Freedom, g-gimme dat  
Pussy, gimme dat
