

# Once a Day

Mac Miller

[Chorus]

Once a day, I rise  
Once a day, I fall asleep with you  
Once a day, I try, but I can't find a single word[Verse 1]  
I wonder what they know  
I wonder if they ever even cared at all  
I wonder, do they see their own reflection in the mirror and look away[Refrain]

Everybody keep rushing

Why aren't we taking our time?

Every now and again, baby, I get high

[Verse 2]

Don't ask me what I'll think

It never really mattered what I had to say

I just keep waiting for another open door to come up soon

Don't keep it all in your head

The only place that you know nobody ever can see

You're running low on the bread

No tears, that's keeping you real

I think you gettin' it now[Refrain]

But everybody keeps rushing

Why aren't we taking our time?

Every now and again, baby, I get high[Bridge]

And everybody needs something

When they stuck on your mind

But every now and again, why can't we just be fine?

[Chorus]

Once a day, I rise

Once a day, I fall asleep with you

Once a day, I try, but I can't find a single word
