Magical Mistakes

Athlete

You'll always be my pretty dancer Spinning trails of fairy dust Making moves like nobody else On your own If anybody needs a reason it's right hereGiving me shockwaves Those magical mistakes Sending shockwaves through my atmosphere If anybody needs a reason it's right here If those eyelids were the shutter to my camera Maybe I would see the world in different light You wear that smile like nobody else On your own If anybody needs a reason it's right hereGiving me shockwaves Those magical mistakes Sending shockwaves through my atmosphere If anybody needs a reason it's right hereStay gold Keep your balance on the tightrope Chasing after My pretty dancerGiving me shockwaves Those magical mistakes Sending shockwaves through my atmosphere If anybody needs a reason it's right here Giving me shockwaves Those magical mistakes
