

# More Than Anything (feat. Emeli Sandé)

## Rudimental

I'm on my knees, begging please  
Teach me how to love like my mother baby  
She loved him every day, thick and thin  
She loved daddy like crazy I would kill, I would steal  
Have a feel, have a heart like my brother  
He'd run from life, won't think twice  
Give his life to fight for his baby mama See If I could love  
Don't you think that I'd love somebody?  
If I could trust  
Don't you think that I'd let you touch me?  
Teach me to love  
I hope there's still hope for me  
'Cause I wanna love  
I wanna love  
More than anything  
More than anything  
Teach me everything  
I wanna love I wanna feel your kiss  
Oh I mean really feel it  
What I would give  
To say you didn't really mean it I wanna ride over that  
And the kids on television  
God knows I try  
God knows I try  
See If I could love  
Don't you think that I'd love somebody?  
If I could trust  
Don't you think that I'd let you touch me?  
Teach me to love  
I hope there's still hope for me  
'Cause I wanna love  
I wanna love More than anything  
More than anything  
Teach me everything  
I wanna love Don't you leave me  
Don't you leave me More than anything  
More than anything  
Teach me everything  
I wanna love If I could love  
Don't you think that I'd love somebody?  
If I could trust  
Don't you think that I'd let you touch me?

Teach me to love  
I hope there's still hope for me  
'Cause I wanna love  
I wanna love
