## Repetition

## **Information Society**

I'm coming back to you

Just like before.

I've been a lonely boy

Since I walked out your door.

If there's a life for us,

I don't know.

But I can't live like this

Anymore. The time I spend alone has nothing to give.

It's repetition,

I'm coming back to you.

Repetition,

The only thing I can do.

I'm coming back to you,

This time to stay.

If I've learned one thing

It's that I can't stay away.

The time I spend alone has nothing to give.

The life I lead alone has nowhere to live.

It's repetition,

I'm coming back to you.

Repetition,

The only thing I can do. And I can still recall

How you would hold me.

The way a vast wave

Broke so slowly.

It's repetition,

I'm coming back to you.

Repetition,

The only thing I can do.

Repetition,

And we can see this through.

It's repetition,

I'm coming back to you.
