

# Wedding Song

## Yeah Yeah Yeahs

With every breath I breathe  
I'm making history  
With your name on my lips  
The ages fall to bits In flames I sleep soundly  
With angels around me  
I lay at your feet  
You're the breath that I breathe Some kind of violent bliss  
Led me to love like this  
One thousand deaths my dear  
I'm dying without you here In flames I sleep soundly  
With angels around me  
I lay at your feet  
You're the breath that I breathe  
You're the breath that I breathe  
The breath that I breathe  
The breath that I breathe  
You're the breath that I breathe
