

# Mood Swings (feat. Lil Tjay)

## Pop Smoke

[Pop Smoke (Lil Tjay):]  
(Mood swings)  
Oh, you ain't know I could sing? (Oh, oh, oh)  
Hahaha (Yeah)Shorty a lil' baddie (She a lil' baddie)  
Shorty my lil' boo thing (Boo thing)  
And shorty got the fatty  
Shorty be catching mood swings  
Every time I fuck without a rubber  
I nuttied on the covers  
And I kept it undercover  
'Cause I don't kiss and tell (Kiss and tell)  
Every time I fuck, she call me daddy  
My lil' mama nasty  
I see the pussy through the panties (Whatever you want)  
She taste like candy  
She a queen, like Nefertiti  
Uh oh, my lil' mama sittin' pretty  
And we be shoppin' through the city (Oh, oh)  
I gave her keys to the Bentley (Woah, woah)  
Get off your knees, you don't gotta cry to me  
I'm your best friend, baby, you don't gotta lie  
I'll get you everything that you want and that you need from Chanel to Celine  
It's on you to decide  
Valentino, yeah, I put you in the best  
Start liftin' up your dress, start kissin' on your neck (Oh no, no)  
Start rubbin' on your butt, start massagin' your breasts  
I ain't wanna give you a baby just yet, so I backed out and nuttied on your breasts  
I put you in an Uber (Uber) and sent you to your bed (Oh)  
The very next day (Oh), you sent me a text (Oh)  
You pulled up to the crib and we did it again (Oh, oh)  
Shorty a lil' baddie (She a lil' baddie)  
Shorty my lil' boo thing (Boo thing)  
And shorty got the fatty  
Shorty be catching mood swings  
Every time I fuck without a rubber  
I nuttied on the covers  
And I kept it undercover  
'Cause I don't kiss and tell (Ooh)[Lil Tjay (Pop Smoke):]  
You know, I never found love until I looked between your eyes (Between your eyes)  
First time blushin', I ain't even gon' lie (Ain't even gon' lie)  
Full round ten, leavin' bruises on your thighs  
You the only bitch could make me spin off on the guys

And the only bitch that make me wanna nut when I'm inside  
It's your vibe, leave with me you gettin' high  
Plenty bitches fuckin' with you even if they tried  
Pussy on tsunami, I ain't never felt it dry  
Close my eyes while I sleep, hope you be there while I wake  
Honestly, I feel the vibe we have is great  
And if there's something in your mind, you can tell me  
And if I told you what's on mine, would you help me?  
See the bigger picture, it's just gon' take time  
That's because you mine  
I'ma keep you lookin' like a dime  
Ain't no imperfections, girl, you fine  
Baby, what's your sign?  
Hope you went and guessed, just slow down  
(Work, work, it's me and you) Me and you  
Keep it silent, there ain't nothin' we can't do  
Through the storm, baby, we can make it through  
Why you actin' brand new? You know you my lil' boo, yeah  
Got up on my Birkin, it's workin'  
She said she a virgin (It's hurtin')  
She my biggest fan, she always lurkin'  
She know I'm a man, I'ma put that work in  
I know she can't stand me, I'm fancy  
So I'ma bring her out when I get my Grammy  
Late night sex, she can't find her panties  
Couldn't hold it in, now she need a plan B[Pop Smoke (Lil Tjay):]  
(Shorty a lil' baddie)  
(She my lil' boo thing)  
And shorty got the fatty (Shorty got the fatty)  
Shorty be catching mood swings  
(Every time I fuck without a rubber)  
(I nudded on her covers)  
And I kept it undercover  
'Cause I don't kiss and tell
