

# Gonna Wanna Tonight

## Chase Rice

If you wanna climb a ladder on a water tower  
than we'll kick it with the stars for a couple of hours  
If you wanna we're gonna get way up high  
If you wanna dip your toes where waters stops  
If you wanna then we're gonna have to give a try, that's right  
If you gonna go out wait  
where there ain't nobody around  
And let your long hair get to falling down  
And let your red lips leave  
Their mark all over mine  
If you wanna then we're gonna girl  
I hope you're gonna wanna tonight  
If you wanna then we're gonna girl  
I hope you're gonna wanna all night  
If you wanna catch a buzz and ride it till the morning  
Let's get two plastic cups  
and baby I'll get to pouring  
It don't really matter if it's whisky or wine  
it's fine  
If you gonna go out wait  
where there ain't nobody around  
And let your long hair get to falling down  
And let your red lips leave  
Their mark all over mine  
Fill up the night air with the radio  
And put your hands whatever they wanna go  
Yeah we're right here  
Girl just close your eyes  
If you wanna then we're gonna girl  
I hope you're gonna wanna tonight  
If you wanna then we're gonna girl  
I hope you're gonna wanna all night  
Gonna wanna get a little closer  
Gonna wanna slide it on over  
Gonna wanna  
Gonna wanna go out  
where there ain't nobody around  
And let your long hair get to falling down  
And let your red lips leave  
Their mark all over mine  
Come on  
Fill up the night air with the radio  
And put your hands whatever they wanna go  
Yeah we're right here  
Girl just close your eyes  
If you wanna then we're gonna girl  
I hope you're gonna wanna tonight  
If you wanna then we're gonna girl  
I hope you're gonna wanna all night  
Gonna wanna get a little closer  
Gonna wanna slide it on over

Gonna wanna  
Ya gonna wanna tonight
