

# Whispering Wind

Moby

Like the whispering wind you sent to me  
Like the hopeless time you gave to me  
I watched your dreams all slip away  
I watched your dreams all slip away  
There's a hopeless place inside my heart  
When I look inside I see where we are  
Like the whispering wind in the top of the trees  
I will watch the sky come following me  
Like the rain on my windows late every night  
Like the hope I have for us every time  
It's like the whispering wind in the top of the trees  
I see it sway as you come for me  
There's a whispering wind, I feel it inside  
Like a place I can feel but never will see  
Let a whisper come touch you, come touch every thing  
I stand in the way of the things I can be  
Let the whispering wind come lift us away  
Let it push us apart if we wish to stay  
You're my sweetness, my baby, my love for all time  
Like the whispering wind it makes you all mine  
Like the whispering wind you stand here with  
me  
Like the whispering wind you stand here with me  
I see your dreams all slip away
