

Those Were the Nights

Hunter Brothers

Hey, do you wanna go back in time
A little rewind in your mind
2002, 2005
Hey, you remember how we used to roll
With the rhythm of the radio
Nowhere to be, nowhere to go
Joyride in mama's car
Out to the reservoir
Yeah, we were small town stars
When we danced on the edge of the silhouette sky
And we painted our dreams in the sand
When we shouted forever like we'd never die
Those were the nights
When we danced on the edge of the silhouette sky
And we painted our dreams in the sand
When we shouted forever like we'd never die
Those were the nights
Oh, there was magic in the air
There were memories everywhere
We were way too young to care
Love wasn't easy then
We have a lot to give
You know I'll never forget
When we danced on the edge of the silhouette sky
And we painted our dreams in the sand
When we shouted forever like we'd never die
Those were the nights
When we danced on the edge of the silhouette sky
And we painted our dreams in the sand
When we shouted forever like we'd never die
Those were the nights
Oh-oh-oh... those were the nights
When we danced on the edge of the silhouette sky
And we painted our dreams in the sand
When we shouted forever like we'd never die
Those were the nights
When we danced on the edge of the silhouette sky
And we painted our dreams in the sand
When we shouted forever like we'd never die
Those were the nights
Those were the days, those were the times
Those were the memories that we made, those were the nights

Those were the days, those were the times
Those were the memories that we made, those were the nights
Those were the nights
