

Always Beside You

Common Kings

Even if I'm standing tall, never looking down low
Even if I'm standing, honestly, never too good for ya
No matter how far I go, I'm never too cool
I'll stay beside you In every situation you're my equal, ain't no I am people
If anybody tells ya different, don't listen they're deceitful
No the money don't make you, it's you that makes the money
You'll always need somebody, beside you Cause I'm never above you, oh
Never below you, oh no oh no
Just take a look around, you'll see
I'm always beside you, only beside you
Ohohohoh
Beside you, ohohohoh
Yeah, ever get ahead of me, please don't get beside yourself
Cause everything that goes up comes falling down, don't wanna be there alone
If you live by these words, "Don't be too cool"
You find me beside you In every situation you're my equal, ain't no I am people
If anybody tells ya different, don't listen they're deceitful
The money don't make you, it's you that makes the money
You'll always need somebody, beside you Cause I'm never above you, oh
Never below you, oh no oh no
Just take a look around, you'll see
I'm always beside you, only beside you
Beside you, ohohohoh
Beside you, ohohohoh
Just take a look around, you'll see
I'm always beside you, only beside you
Cause I'm never above you, oh
Never below you, oh no oh no
Just take a look around, you'll see
I'm always beside you, only beside you
Beside you, ohohohoh
Beside you, ohohohoh
Just take a look around you'll see
I'm always beside you, only beside you
