## **Take It Or Leave It**

## **Rae Sremmurd**

I spill the cup for you, take it or leave it I saved some room for you, take it or leave it I gotta crazy view, take it or leave it I got love for you, take it or leave it I know you pick up on the very first ring Let's go somewhere where we can just be unseen I'm reachin' out to you, take it or leave it Reachin' out to you, take it or leave itShe wanna ride I just want some time when I'm fried She bad as fuck But I know she would bury me alive Just say that it's dead If you wanna live on a lot If you get in the mood I want you to keep me in mind I got the booze, we can rendezvous Jump inside, baby, we can cruise Don't be led by the goddamn fools Yeah, right beside me, you cannot lose I spill the cup for you, take it or leave it I saved some room for you, take it or leave it I gotta crazy view, take it or leave it I got love for you, take it or leave it I know you pick up on the very first ring Let's go somewhere where we can just be unseen I'm reachin' out to you, take it or leave it Reachin' out to you, take it or leave itRemember how you held me down When all I had was a vision I could cop a model bitch but You the one that I'm missin' Girl, I hope you get this message And I pray that you hit me Cause you the one that's on my mind Late night when I'm driftin' Pour a shot for me, pour a shot for you I'm still around cause I fuck with you Just say the word, we can go missin' Long as we together, it don't make a difference I spill the cup for you, take it or leave it I saved some room for you, take it or leave it I gotta crazy view, take it or leave it I got love for you, take it or leave it

I know you pick up on the very first ring Let's go somewhere where we can just be unseen I'm reachin' out to you, take it or leave it Reachin' out to you, take it or leave it
