Pipe Bomb Dream

Turnpike Troubadours

Tonight we're fighting in a losing war Don't even remember what we're fightin' for Running on hope and gasoline Got a real, bad feeling it's a pipe bomb dreamSo, I did a little something for the brave and free Now you gonna' make a law against a boy like me Took a few too many liberties It's a hard ass lesson to learn Roll the dice just one more turn Too heavy on the pedal and you crash and burn Driving all night with a steady hand Bringin' a heavy rig home from the promised land Oklahoma City by the morning sun I ain't never met a problem that I can't outrunI did a little something for the brave and free Now you gonna' make a law against a boy like me Took a few too many liberties It's a hard ass lesson to learn But I roll the dice just one more turn Too heavy on the pedal and you crash and burnWell, I was riding high when the lights came on I was 45 miles from the county line Hit a jackpot once went back for more From an old pipe dream to a cell block floor Say, it's alright but you know it's not And you're breaking up laws and you wind up caught It's everything or all for naught It's a hard ass lesson to learn Roll the dice just one more turn Too heavy on the pedal and crash and burn Too heavy on the pedal and crash and burn
