

Smokin' Room (feat. Chaka Khan)

Rufus

Here we are alone in this old smokin' room again
If your highness is your pleasure it's alright
Cause there's an extra added goodness
In my heart for you tonight
If there's any such a thing as God
He must be here tonight Ain't sayin' I'm right
Ain't sayin' I'm wrong
Ain't sayin' there's any such a thing as short or long
It seems you been here many times before
It's too beautiful but true
And I'm glad I got the chance tonight
To share my now with you
I used to be locked in a closet and I couldn't find the key
Used to be you'd look my way but not see me
But it's happiness to know that from yourself you cannot hide
And that here's where I am and it's you that's by my side Ain't sayin' I'm right
Ain't sayin' I'm wrong
Ain't sayin' there's any such a thing as short or long
It seems you been here many times before
It's too beautiful but true
And I'm glad I got the chance tonight
To share my now, share my now
Oh baby baby? Oh yeah
So glad I gotcha spend some time
Spend some time glad I gotcha baby (repeat) So glad I gotcha share my life
Share my life glad I gotcha baby (repeat)
