

Family Values

Fifteen

Lately I've been working in a factory in an industry yeah
Lately I've been working in a factory wage slave that's me yeah
Lately I've been working in a factory in an industry yeah
Lately I've been working filling barrels 10, 003 yeah
How much wine is enough, to sell to americans
How many products are enough, to sell to Americans
How much profit is enough for one rich man to make off my labor
'cause he knows damn well it comes at the expense of me having time for my children
Lately I've been working in his factory in his winery yeah
Lately I've been working filling barrels 10, 003 yeah
Lately I've been working in his factory so I can feed his babies
Lately I've been working in his factory, wage slave that's me yeah
How much wine is enough, to sell to americans
How many products are enough, to sell to Americans
How much profit is enough for one rich man to make off my labor
'cause he knows damn well it comes at the expense of me having time for my children
Family values means, burn down the factory
