

Tequila Again

Brothers Osborne

I'll never forget the first time kissed her
And that's where the story begins
At a dive bar named Nina's in Encinitas
We met through a mutual friend
Had a hell of a time and we went all night
By morning she messed up my head
I swore her off, but I'll be damned
I fell in love with tequila again
We lost our minds, we danced all night
Picked up right where we left off
Raised hell with the boys
Made all kinds of noise
Singing at the top of our lungs
And once again I'll wake up on time
With the headache turned up to 10
Asking myself why the hell
I fell in love with tequila again I've had some lovers, some more than others
They've all been a bittersweet buzz
And I've had some vices, most more than thrice
And none does me quite like she does
I try to forget her, wish I'd never met her
But I leave a word set on her
Now come Friday night, I fall right by
I'm back in love with tequila again
We'll lose our minds, we'll dance all night
Pick up right where we left off
Raise hell with the boys
Make all kinds of noise
Singing at the top of our lungs
Yeah once again I'll wake up on time
With the headache turned up to 10
Asking myself why the hell
I fell in love with tequila again They laid me down, I'll fall in and out
Of love with tequila again
