

# The Rest of Our Life

Tim McGraw & Faith Hill

Sittin' with you in a dark room  
Warm by a fireplace  
You know there's just something about you  
You brighten my day uum uumI got something to run past you  
I just hope I say it right  
So I take your hand and ask you  
Have you made plans for the rest of your life?  
There's one thing I should be givin' up, givin' up nowAnd that's worryin' about life  
Oh, I'll be fine  
If one gray hair shows, i'll be fine  
If my waistline goes, i'll be fine  
Even if time takes its toll  
We'll stay young for the rest of our lite  
I've been makin' plans for children  
Since I've been lookin' in your eyes  
I even have names picked out for them  
Daughter; it'd be Rose  
Son; it'd be RonThere's one thing I should be givin' up, givin' up now  
And that's worryin' about life  
Oh, I'll be fine  
If one gray hair shows, I'll be fine  
If my waistline goes, I'll be fineEven if time takes its toll  
We'll stay young for the rest of our life  
I don't really care about those storm clouds brewin'  
Oh, as long as you're here by my side  
Oh, we'll be young, oh we'll be young  
Oh, we'll be young, when we're old  
Oh, I'll be fine  
If my gray hair shows, I'll be fine  
If my waistline goes, I'll be fineEven when time takes its toll  
I'll stay young for the rest of my life  
With you, I'll stay young for the rest of my life  
With you we'll stay young for the rest of our life
