

# Disappeared

## Majical Cloudz

Those that forever disappear  
All I want is for you to talk to me  
The way you used to do Your old hands don't touch my face  
My heart moves in a new place  
I am out of practice  
Falling into love Remember when we used to say  
I don't know and it was okay  
I am going back to knowing nothing now Those that forever disappear  
All I want is for you to talk to me  
The way you used to do  
If you won't be seen again  
I hope you know you were my friend  
And in my head, the world will never be
