

Make Ur Move

Tweet

The way you are
Makes me feel so good Tell me what your name is?
Damn you should be famous
And I can barely take it
Could this be what faith is? 'Cause I've seen you more than twice
Damn you're my delight
Can I get your number?
Satisfy my wonder
Baby, use what you got
Bring it Baby make ur move
Is all new, is alright
(Is alright)
So baby use what you got
Baby make ur move
Is all new, is alright
(Is alright)
So baby use what you got
What you got Tell me what's your sign?
Damn you must be fine
And it could be one minute
But I won't waste your time Give me just one night
Damn you're my delight
I love for you to love me
Baby, satisfy my curiosity
And use what you got
Bring it
Baby make ur move
Is all new, is alright
(Is alright)
So baby use what you got Baby make ur move
Is all new, is alright
(Is alright)
So baby use what you got
What you got It's just the way
The way you are and
You move is so good to me
So baby you
(Ooh babe) It's just the way
The way you are and
You move is so good to me
So baby you, you make me
Feel so good Baby make ur move

Is all new, is alright
(Is alright)
So baby use what you gotBaby make ur move
Is all new, is alright
(Is alright)
So baby you, you make me
Feel so goodIt's just the way
The way you are and
You move is so good to me
So baby, you
(Ooh babe)It's just the way
The way you are and
You move is so good to me
So baby, you, you make me
