

# Cold (feat. Future)

## Maroon 5

Cold enough to chill my bones  
It feels like I don't know you anymore  
I don't understand why you're soCold to me with every breath you breathe  
I see there's something going on  
I don't understand why you're so coldAre we taking time or a time out?  
I can't take the in between  
Asking me for space here in my house  
You know how to fuck with meActing like we're not together  
After everything that we've been through  
Sleeping up under the covers  
How am I so far away from you?  
Distant when we're kissing feel so different  
Baby, tell me how did you get soCold enough to chill my bones?  
It feels like I don't know you anymore  
I don't understand why you're soCold to me with every breath you breathe  
I see there's something going on  
I don't understand why you're so cold, yeahWhoa, yeah, whoa, yeah  
I don't understand why you're so coldWhat you holdin' on, holdin' on for?  
If you wanna leave, just leave  
Why you wanna bite your tongue for?  
The silence is killing meActing like we're not together  
If you don't want this, then what's the use?  
Sleeping up under the covers  
How am I so far away from you?  
Distant, oh, when we're kissing, yea, feel so different, yeah  
Baby, tell me how did you get soCold enough to chill my bones?  
It feels like I don't know you anymore  
I don't understand why you're soCold to me with every breath you breathe  
I see there's something going on  
I don't understand why you're so cold, yeahWhoa, yeah, whoa, yeah  
I don't understand why you're soCold, yeah (So tough, it's a cold world)  
Whoa, yeah (So tough, it's a cold world)  
Whoa, yeah (So tough, it's a cold world)  
I don't understand why you're so coldNever thought that you were like this  
I took the tag off and made you priceless  
I just spent half a mill' on a chandelier  
Now you tryna cut me off like a light switch, yeahTryna stay, and I leave  
Saying that you need some time to breathe  
Thinking that I'm sleeping on the four letter word  
But the four letter word don't sleepWe goin' two separate ways  
You ain't been actin' the same  
You gotta go, but where your heart used to be

You gold dig every day I switched the four door to the two door  
'Cause I can't let my driver hear what you say  
Girl, I tried to give you space Baby, tell me how did you get so cold enough to chill my bones?  
It feels like I don't know you anymore  
I don't understand why you're so cold to me with every breath you breathe  
I see there's something going on  
I don't understand why you're so cold, yeah (So tough, it's a cold world)  
Whoa, yeah (So tough, it's a cold world)  
Whoa, yeah (So tough, it's a cold world)  
I don't understand why you're so cold, yeah (So tough, it's a cold world)  
Whoa, yeah (So tough, it's a cold world)  
Whoa, yeah (So tough, it's a cold world)  
I don't understand why you're so cold
